

APPLICATIONS
VETERINARY

VETERINARY

So intuitive to **collect data**
So effective to **share information**

BENEFITS

- A technology perfectly suited to usage constraints
- Time saved and immediate savings
- Investigator recruitment facilitated
- Fully regulations-compliant

CURRENT ISSUES

- Electronic clinical management tools are often poorly suited to the constraints of animal health testing
- Laboratories have very little time to implement their studies

KAYENTIS SOLUTION

- Kayentis or the team trained on the sponsor's premises designs, prepares and prints the electronic CRFs
- Each investigator is equipped with a digital pen and an electronic CRF
- The digital pen allows data entry and transmission in real-time
- The data is checked and corrected as it is entered by a data entry operator, which considerably shortens the DCF end of trial phase
- The CRAs can focus on their monitoring activities
- The data management team has access to the approved data in real time
- The trial data is exported to the sponsor's management systems

BENEFITS

- A TECHNOLOGY PERFECTLY SUITED TO USAGE CONSTRAINTS
 - A simple and user-friendly tool that withstands all weather conditions
 - First electronic tool that is standalone and enables roaming
- TIME SAVED AND IMMEDIATE SAVINGS
 - Real-time monitoring
 - Data management process shortened by 1.5 months on average
 - Robust, reusable equipment
- INVESTIGATOR RECRUITMENT FACILITATED
- FEWER CONSTRAINTS FOR INVESTIGATORS, FACILITATING THEIR RECRUITMENT AND INCREASING THEIR LOYALTY TO THE LABORATORY
- FULLY REGULATIONS-COMPLIANT
